THE 8TH TIMEPIE LONGEVITY FORUM

PARTNER PROSPECTUS

SEPTEMBER 4-5, 2027 | GUANGZHOU, CHINA

ABOUT TIMEPIE

Founded in 2019 in Shanghai, TimePie is among China's earliest and most influential players in longevity technology dedicated to scientific insights, industry empowerment and ecosystem connectivity.

Over 7 years, TimePie has collaborated with 200+ leading scientists globally, published 3,000+ original scientific articles, built a community of 1.5M+ followers, and established the Chinese Anti-Aging Biohacker Alliance, bringing together China's most active longevity practitioners and innovators.

To date, TimePie has hosted 7 consecutive editions of one of China's largest longevity forums and published eight editions of its semi-annual longevity technology magazine, establishing strong visibility both in China and globally.

TIMEPIE LONGEVITY FORUM

2,000+ Targeted Attendees | 50+ Global Researchers & Biohackers | 40+ Exhibiting Companies

As the Chinese longevity market approaches a critical point, there is an urgent need to lead scientific and technological innovation and to build a standardized ecosystem for longevity prevention and intervention in collaboration with industries.

TimePie Longevity Forum is a premier gathering of international top-tier scientific research and industry leaders. By bringing together leading experts, global top academic and research institutions, and industry partners, the Forum aims to create a cross-sector platform for idea exchange and collaboration.

Now in its seventh consecutive edition, it is recognized as one of China's earliest, largest, and most influential longevity science and technology events.

WHY CHINA, WHY GUANGZHOU?

01 | China: A Rapidly Growing Longevity Market

The new industry is forming around it, backed by policy support and an expanding consumer base. With over 320 million people aged 60 and above, China faces growing demand and emerging opportunities for healthy aging, preventive healthcare and longevity solutions

02 | The Greater Bay Area: An Innovation Hub

The GBA concentrates the resources this industry runs on: biomedicine, healthcare, technology and advanced manufacturing. Its connected cities let one company pair world-class R&D with cross-city scale-up and efficient market entry.

03 | Guangzhou: A Gateway to the Market

Strategically located near Hong Kong and Macao, Guangzhou links international technology, professional talent and Chinese companies with market partnerships.

EXHIBIT · SPONSOR · CONNECT

PUT YOUR BRAND AT CHINA’ S LONGEVITY ECOSYSTEM

Exhibition Space

Showcase your solutions, generate qualified leads and connect with potential partners.

Full Conference Access

Access all sessions, exhibitions, exclusive meetings and networking events.

Speaking Opportunities

Present your innovations and share your expertise with the global longevity community.

Brand Visibility

Amplify your reach through TimePie’s media network and 1.5M+ community.

Exclusive Gala Dinner

Build relationships with invited scientists, investors and industry leaders.

Meet Decision-Makers

Connect with clinic owners, executives and key players across the longevity industry.

MEDIA & VISIBILITY SUPPORT

➢ Before the Forum

Event and partner previews across TimePie-owned channels
Speaker and topic announcements to build early visibility

➢ During the Forum

On-site coverage including highlights, short videos, and live updates
Brand and product exposure within real-time event content

➢ After the Forum

Session highlights and key insights published as articles
Full-session videos with Chinese subtitles
Distribution on YouTube and major Chinese video platforms

Success Story

GeneIII Biotechnology Co., Ltd

Key Outcomes

1,500 product samples distributed to targeted audiences
Hundreds of qualified leads generated

Commercial Impact

0.5 kg ergothioneine sold to a Singapore buyer
~RMB 100,000 (USD ~14,000) in on-site sales

Scientific Collaboration

Engagement with leading scientists, including Prof. Barry Halliwell
Post-event research collaboration established

Business introductions	√	√	√	√	Subject to mutual interest & availability
Strategic Partnership & Customization					
Bespoke partnership benefits				√	

BEYOND THE FORUM
TIMEPIE LONGEVITY RESEARCH GRANT

➢ Our Commitment

Our Forum is a ticketed event, but not profit-driven.
After covering costs, all net proceeds are reinvested into longevity research.

➢ What We Have Done

7 early-stage longevity research projects funded.
Grants awarded to young researchers with strong ideas and limited funding.
All funding derived directly from forum net proceeds.
*Grant recipients present their research progress at subsequent TimePie forums.

➢ Why It Matters

We aim to build a sustainable ecosystem where the forum not only
connects people, but also directly supports scientific progress.
