**TIME PIE**  
AGING SLOW LIVING WELL

**The New York Times**

*In China, the Dream of Outrunning Time*

Longevity labs, "immortality islands" and grapeseed pills are part of China's national project to conquer aging, despite sometimes shaky science and extravagant claims.

**6th TimePie Longevity Forum**

From science to solution, from policy to practice.

by Press release June 26, 2025

**TimePie Lecture Series**

Every month, TimePie invites 1-2 famous anti-aging scholars or longevity technology industry practitioners to do live broadcasts, sharing anti-aging knowledge, exclusive views, and industry...

# BEYOND THE FORUM THE TIMEPIE LONGEVITY RESEARCH GRANT

## ➤ Our Commitment

Our Forum is a ticketed event, but not profit-driven.

After covering costs, all net proceeds are reinvested into longevity research.

## ➤ What We Have Done

4 early-stage longevity research projects funded

Grants awarded to young researchers with strong ideas and limited funding

\*Grant recipients present their research progress at subsequent TimePie forums.

## ➤ Why It Matters

We aim to build a sustainable ecosystem where the forum not only connects people, but also directly supports scientific progress.
